**DataBase:** MongoDB, Sql, MySql, PostgresSql, Firebase

---

## PERSONAL PROJECTS

### Portfolio

- Developed a responsive, scalable portfolio with HTML and JavaScript focusing on reusable components and optimized performance.
- Styled with Scss, i.e a pre-processor scripting language or a super-set of Css.
- Used JavaScript to make the page act like a single page application.

### Employee Management System

- Developed a full-featured e-Commerce website using React and firebase with distinct sections for admin and users.
  - Used Firebase for authentication and write React code for different functionalities including filtering and full CRUD operations.
  - Used Tailwind Css For a modern responsive and mobile friendly framework.
-
